

10th EMERGENCY MEDICINE SUMMER SCHOOL MONTENEGRO 2027

EMSS PROGRAM

Besides standard emergency medicine topics such as BLS, cardiopulmonary resuscitation, we are organizing:

- **SUTURING,**
- **LAPAROSCOPY,**
- **BLS COURSE,**
- **CAR ACCIDENT SIMULATION,**
- **PNEUMOTHORAX DECOMPRESSION,**
- **BLEEDING WORKSHOPS**

and two day extraordinary optional sessions:

ADVANCED SURGICAL COURSE:

Our Advanced Surgical Course is designed for students who are looking to refine and expand their surgical techniques in various specialties. Over two intensive days, participants will engage in both theoretical and hands-on sessions led by surgeons.

The course offers a unique opportunity to practice advanced techniques in a controlled, supportive environment.

WHAT OUR PARTICIPANTS HAVE TO SAY ABOUT EMSS

There is nothing to add. It was pure perfection! Thank you for this experience!
Dominik

Thank you for such a fantastic experience. I feel that I have learned a lot during this emergency medicine summer school which will help me grow in my studies.
Clara

I had so much fun. It was extremely well organized, and we didn't stop for one minute. Stefan, the coordinator, was entertaining and was always there to help us if we needed to order a taxi, for example, and many other things. I totally recommend this to my friends.
